

## Plantes à propagation limitée octobre 2011

Chers membres de COPF :

Votre statut de membre de COPF **ne vous donne pas automatiquement le droit de propager et de distribuer les plantes enregistrées auprès de COPF**. Par exemple, toute plante protégée par la Loi sur la protection des obtentions végétales du Canada peut nécessiter l'obtention, par les membres, d'un permis légal de propagation afin de pouvoir produire cette plante. Tous les producteurs, incluant les membres de COPF, doivent obtenir une permission d'autorisation de produire toute plante protégée par la Loi canadienne mentionnée plus haut (POV). Les détenteurs américains de plantes brevetées peuvent légalement interdire la propagation et la distribution de ces plantes aux États-Unis (cette règle s'applique également aux envois en partance du Canada).

Toutes les plantes qui apparaissent sur le présent rapport sont enregistrées par l'hybrideur auprès de COPF comme étant des plantes protégées, donc leur propagation est interdite. Si vous désirez produire ces plantes vous devez communiquer avec nous afin d'être adéquatement informés sur les exigences à remplir pour l'obtention d'un permis de propagation. Il revient à chacun de s'assurer de se conformer aux exigences de la loi et de respecter les engagements pris envers COPF en tant que membre.

Il peut être décevant de constater que la plante que vous désirez propager est protégée mais vous constaterez à la lecture du rapport, que la propagation de la majorité des plantes enregistrées auprès de COPF, **n'est pas** restreinte. Nous vous invitons à nous faire parvenir vos listes de plantes. Nous les réviserons et vous informerons au sujet des plantes que vous pouvez ou ne pouvez pas produire et/ou envoyer aux États-Unis (frais applicables).

**Victoria Turner Shoemaker, Directrice générale de COPF – victoria@copf.org**
